Rolling Ridge

Carved into the forest is Rolling Ridge, a community of 11 single family homes, all with wooded lots in Central Bucks School District. With Neshaminy Creek in the backdrop, nature can be heard from your backyard, and yet the ability to explore and enjoy are all well within reach.

In Historic Chalfont

Rolling Ridge's 11 single family homes are close to Routes 202, 309, and 611 as well as historic Doylestown Borough. Home sites at Rolling Ridge range from just under a .5 acre to .75 of an acre, allowing you to build floor plans from 2,883 to 3,500 square feet.

Rolling Ridge Site Plan - 11 single family homes

Our Homes

Our goal in designing each home collection was to blend timeless architecture with modern amenities. They had to feel open and flowing while intimate and warm. Luxurious living with quality craftsmanship. Most importantly, they needed to address how modern families work, play, live and grow.

We are thrilled to share the results of our design collaboration. Each home collection is fully realized with three architectural variations to choose from: Classic, Traditional and Craftsman.

If you would like to make any custom modifications, our award-winning architects are here to help.
